

Soluteo: Proud Member of « ISV BlackBerry® Alliance »

October 10, 2004 - BlackBerry® based mobile solutions specialist Soluteo announces that Research in Motion (RIM) has certified its expertise by renewing the company "ISV BlackBerry® Alliance" membership. Soluteo is one of the few ISV accredited enterprises in Europe.

ISV membership ensures Soluteo has RIM's support in the development of future applications in particular by allowing for unrestricted access to the BlackBerry® Application Program Interface (API).

"ISV Alliance membership renewal is definitely some form of acknowledgment of our expertise" explains Soluteo's Director, Sigisbert Ratier "but more importantly it is a great opportunity for our clients and partners to benefit from all the advantages of the BlackBerry® platform".

The renewed agreement allows for bi-lateral collaboration in such fields as data security, education and marketing. Soluteo will also have a privileged access to upcoming versions of the platform thus allowing a "fast track" application development program.

About Soluteo...

Based in the UK, in France and Canada, Soluteo specializes in real-time mobile extensions for existing enterprise software applications. Soluteo's vertical markets include: Market Research, Field Force Automation, Transport, Real Estate Management, CRM, and Data Acquisition.
